# LOW-PROFILE DRIVE SYSTEMS

### UNLIMITED ACCESSORIES

All RDS systems are designed to accept a variety of specializer applicators, including nozzle carriers, spraybars, rigid tube lance and more. All applicators are manufactured with a specialized bearing journal to ensure rotational stability during operation

### UNLIMITED MOUNTING

All RDS systems come with multiple mounting holes pre-installed on every surface for standard and unique mounring applications. The small overall profile of the RDS allows you to mount this high performance package in tight spaces

### UNLIMITED PERFORMANCE

We've combined our industry-leading Wolf swivel system with Desoutter's 1-HP DR-750 motor and installed them in an anodized, sealed aluminum housing system to create a revolutionary tool that goes anywhere and out performs the competition.

#### AUTOMOTIVE PERFECT FOR PAINT BOOTH ROBOTS

#### PULP & PAPER HIGH PERFORMANCE CLEANING & CUTTING

#### DEDICATED TOOLING READY TO BOLT ON TO ANY DESIGN

PRODUCT DESCRIPTION	AIR MOTOR SPEED	SWIVEL		AIR CONSUMPTION		Dimensions
